SREERAM N

INFORMATION SECURITY COORDINATOR | CYBERSECURITY PROFESSIONAL

+91 9656389428 | sreeramnj007@gmail.com | Kerala, India | linkedin.com/in/sreeram-nj

PROFESSIONAL SUMMARY

Information Security Coordinator with hands-on experience in cybersecurity governance, technology risk management, and regulatory compliance within the financial services sector. Skilled in ISO 27001 internal auditing, security policy development, Google Workspace DLP, phishing simulation, and Active Directory monitoring. ISO 27001:2022 Internal Auditor and Fortinet-certified, with a B.Tech in Information Technology (Cybersecurity and Forensic Studies).

CORE COMPETENCIES

ISO 27001 Auditing | Data Loss Prevention (DLP) | Active Directory Monitoring | Vulnerability Assessment | Penetration Testing | Incident Response | Phishing Simulation | GRC | Network Security | Risk Assessment | Security Awareness Training | RBI Compliance

WORK EXPERIENCE

Information Security Coordinator *Nov 2024 - Present*

Asirvad Microfinance Limited, Thrissur, Kerala

- Updated Information Security Policies and Standard Operating Procedures (SOPs) in alignment with RBI Master Directions, ISO 27001, and organizational governance requirements.
- Conducted ISO 27001 internal audits and compliance assessments to strengthen the Information Security Management System (ISMS).
- Managed Google Workspace Data Loss Prevention (DLP) monitoring and investigations to identify potential data leakage and policy violations.
- Planned and executed five enterprise-wide phishing simulation campaigns using customized templates through third-party security platforms.
- Delivered weekly cybersecurity awareness sessions covering phishing, social engineering, and information security best practices across 4,000+ users.
- Monitored Active Directory security events, privileged account activities, and authentication anomalies to support identity and access governance.
- Supported incident response activities involving phishing investigations, email security incidents, and policy violation reviews.
- Conducted enterprise security audits across an environment supporting more than 4,000 users.
- Assisted in vulnerability assessments using Nessus, Burp Suite, Wireshark, Nmap, and Kali Linux.
- Prepared audit reports, compliance documentation, management summaries, and security governance reports for senior stakeholders.

Angular Development Intern *May 2023 - Dec 2023*

Wowiso, Thiruvananthapuram, Kerala

- Developed dynamic, responsive web applications using Angular; implemented UI components with secure service integration and REST API consumption.
- Collaborated with .NET backend teams to integrate front-end logic, gaining foundational knowledge of secure full-stack development.

EDUCATION

B.Tech in Information Technology (Cybersecurity & Forensic Studies) *Aug 2020 - May 2024*

Noorul Islam Centre for Higher Education, Kumaracoil | CGPA: 8.9 / 10
